# Our efforts and ambitions with the Swedish Pavilion at the Expo

Our project, initiated and organised by NyTeknik and Forever Sustainable in collaboration with Business Sweden, is establishing a Swedish pavilion at the expo ReBuild Ukraine – Construction & Energy, November 13-14 in Warsaw.

The role of Swedish companies in Construction, Energy, Industry and Housing is paramount in supporting Ukraine. We therefore gather Swedish companies showcasing the best of Swedish experience and expertise.

During this event, companies and organizations from outside Ukraine converge with representatives from Ukrainian ministries, regions and municipalities for on-site meetings, fostering connections and solidifying agreements.

While networking and forging relationships with Ukrainian counterparts to facilitate agreements remain our primary focus, we also believe that participating in the Swedish pavilion represents an opportunity for you to share experiences with other Swedish companies and foster collaborations.

## Our ambitions for the Swedish Pavilion in Warsaw 2024

- To serve as a platform for positioning Sweden's united participation in the Rebuilding of Ukraine, and support the companies prior to, during and after the expo
- Showcase Swedish capabilities from Private Companies, Public Sector, Trade organisations and Financing / Investments partners in collaboration
